

Safety Analysis Reports Training Objectives

Part 1: Describe the regulatory requirements and guidance for the PSAR, FSAR, and the SER.

Part 2: Describe when the safety analysis report must be updated or changed.

Part 3: Describe how the FSAR may be modified to improve focus, clarity, and maintenance.

Part 4: Summarize nuclear power plant history and experience with safety analysis reports.

Part 5: Describe how safety analysis reports are employed in Part 52 licensing.

Certrec Academy training eclipses the current "death by Power Point" training model by engaging the learner with videos, slides, thought provoking Q & A, links to references, and mentorship.

The courses are similar to online college coursework in the level of their content, but they take a fraction of the time to complete.
