

Reactor Oversight Process Training Objectives

Part 1: Describe elements of the reactor oversight process and their relationship to the assessment process.

Part 2: Describe how the NRC inspects, measures, and assesses plant safety performance and how the NRC responds to decline in plant performance.

Part 3: Detail plant performance situations that warrant increased regulatory attention.

Certrec Academy training eclipses the current "death by Power Point" training model by engaging the learner with videos, slides, thought provoking Q & A, links to references, and mentorship.

*The experience was overall very informative and convenient.
