

CERTREC ACADEMY

An Innovative Approach to Learning

Safety Culture Training Objectives

Part 1: Define the safety culture a nuclear power plant needs to avoid significant events.

Part 2: Define and explain differences between "Safety Culture" and "Safety Conscious Work Environment".

Part 3: Describe the industry events that shaped the NRC's safety culture policy.

Part 4: Identify traits of a positive safety culture.

Part 5: Describe INPO's traits of a healthy nuclear safety culture and how safety culture is monitored.

Certrec Academy training eclipses the current "death by Power Point" training model by engaging the learner with videos, slides, thought provoking Q & A, links to references, and mentorship.

*The courses are similar to online college coursework in the level of their content,
but they take a fraction of the time to complete.
