

Nuclear Foundational Training

See how Nuclear Foundational Regulatory Training from Certrec Academy can help you educate and guide your team to better understand NRC regulations.

Who Needs Foundational Training?

Any nuclear professional needing a basic understanding of the regulatory process and how it affects their job and facility

Challenges You Face Today

- **Loss of Knowledge:** Fundamental industry knowledge can be lost if newer employees are not trained and prepared for their roles.
- **Experience Gap:** Experienced plant personnel are rapidly retiring, creating an experience gap in the industry.
- **Difficult to Learn:** It's not easy to find the right training. Death by PowerPoint is a poor way to learn.

Foundational Training Objectives

- **Part 1:** NRC
- **Part 2:** Regulatory Hierarchy
- **Part 3:** Industry-Shaping Milestones
- **Part 4:** Licensing and Design Basis
- **Part 5:** Reactor Oversight Process
- **Part 6:** Other Regulatory Aspects You Should Know
- **Part 7:** NRC Interactions

*Educate & guide your team
to better understand
NRC regulations.*

What's different about Certrec Academy's training?

- A focus on the practical and making it easier to understand and remember.
- Strong engagement via videos, stories, thought-provoking Q&A, and mentorship.
- Better retention by a clear explanation of the context backed by a historical perspective.
- Live tutor during e-learning and a mentor post-instruction.
- Hundreds of actual links, videos and slides that are connected to the NRC and proven in their effectiveness of teaching theory and operational effectiveness.

Elevate your team to

Be informed. Be knowledgeable. Comply with Regulations.

- Get access to one of the largest libraries of NRC regulatory and compliance content.
- Enjoy a diverse range of compelling e-training topics on demand.
- Utilize over 1,000 items of content, modules and videos covering 19 topics.

About Certrec:

Certrec is a leading provider of regulatory compliance solutions for the energy industry. Our SaaS and consulting services have helped hundreds of power-generating facilities manage their regulatory compliance and reduce their risks across nuclear, fossil, solar, wind, and other power plants. Certrec has helped more than 120 generating facilities establish and maintain NERC compliance, and we manage the entire NERC compliance program for 60+ registered sites in the US and Canada that trust us to decrease their regulatory and reputational risk. Certrec is ISO/IEC 27001:2013 certified and has successfully completed a SOC 2 Type 2 examination, resulting in independent verification of the standards of security, availability, reliability, and trusted services that we provide.
