

CERTREC'S **FRMS** Fatigue Rule **Management System**

Putting fatigue-related Issues to rest.

Certrec's FRMS is taking the nuclear industry by storm!

- 5% in 2021
- 10% in 2022
- Almost 20% by the end of 2023

FRMS's reputation – it's a game changer!
Sites find the change exciting and the change management not painful!

FRMS:

- Proven friendly interface – easy learning
- Web-based platform – No software to install
- Scheduling in seconds – not hours
- Cross-station resource sharing
- Fast, fast, fast – everything is calculated in real time
- Accessible anywhere with internet access
- Intuitive for ease of use at all permission levels
- Reports are accurate and computed in seconds
- Scheduling controls prevent violations
- Quick determination of worker availability

All of this with a ready set-up and great support from Certrec.
